### 👤 PROFILE

React Frontend Developer specialized in building responsive and high-performance web applications using React.js and modern JavaScript (ES6+). Experienced in working with RESTful APIs, React Query, and modern UI frameworks like Tailwind and Bootstrap. Passionate about writing clean, scalable code and building real-world user-focused applications.

### 🎓 SKILLS

#### Core Technologies :

- JavaScript (ES6+)
- HTML5, CSS3

#### Engineering & Architecture

Clean Code, SOLID Principles,  
Modular Architecture

#### Frameworks & Libraries

- React.js
- Tailwind CSS , Bootstrap
- Redux
- React Query (TanStack)

#### API Integration

RESTful APIs, Axios (Centralized Instance)

### 📚 COURSES

#### Front-End Development – Mag Camp Academy

03/2025 – 01/2026

Completed an intensive Front-End program covering HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js, and responsive design. Focused on building real-world UI components, applying clean code practices, and mastering version control with Git & GitHub through hands-on projects.

Giza, Egypt

### 📁 PROJECTS

#### Admin Management System 🔗

- **Scalable Architecture:** Engineered a robust API layer using **Axios Interceptors** for global error handling and secure data flow.
- **Performance Optimization:** Boosted UX with **Lazy Loading** and **Skeleton UI**, ensuring high-speed rendering.
- **Admin System:** Built a full **CRUD Dashboard** for real-time inventory and user management.
- **Data Management:** Implemented advanced filtering, pagination, and **Excel export** for business data analysis.
- **Clean Code:** Followed modular component patterns to ensure a **maintainable and scalable** codebase.

#### Aqar Misr – Real Estate Website 🔗

Developed a responsive real estate website using **React.js** and **Bootstrap**. Focused on creating a clean and user-friendly interface optimized for both desktop and mobile devices.

## PROFESSIONAL EXPERIENCE

---

### Front-End Developer Intern

11/2025 – 12/2025

- Completed a one-month internship focusing on Frontend Development. Built and deployed projects including a Landing Page, Dashboard, and Job Tracker App using React.js and Tailwind CSS. Applied state management and useContext for handling data flow across components. Integrated APIs to fetch and display real-time data inside React applications. Created responsive UIs with reusable components styled using Tailwind. Improved problem-solving, clean coding practices, and collaboration within a team environment.
