

Abdulrhman Ahmed Mohamed

Front-End Developer (React.js)

[MyPortfolio](#)[MyLinkedin](#)[MyGithub](#)[MyWhatsApp](#)[MyGmail](#)

PROFILE

Frontend Developer specialized in **React.js** and modern JavaScript. Experienced in building responsive, scalable applications with **Tailwind CSS and React Query**, focusing on performance and clean architecture.

PROJECTS

Soul Kitchen — Restaurant & E-Commerce Platform [\(Watch Video\)](#)

- Built a full-stack platform combining **e-commerce and table reservations** using React.js and Strapi.
- Implemented scalable architecture using **FBA** and **React Query** for efficient state management.
- Developed core features including **cart, checkout, order tracking, and booking system**.
- Applied **Git Flow workflow** with feature branches and pull requests for clean, maintainable code.

Elvora Motors — Full-Stack Car Management Platform [\(Watch Video\)](#)

- Built a full-stack car management platform using **React.js** and **Laravel** with a dynamic UI and admin dashboard.
- Implemented scalable architecture using **Feature-Based Architecture (FBA)** and **React Query** for server state
- Developed **CRUD operations** for users and vehicles with image upload, pagination, and role-based authentication.

SKILLS

Core Technologies : JavaScript (ES6+) | HTML5, CSS3

Frameworks & Libraries: React.js | Tailwind CSS , Bootstrap | Redux | React Query (TanStack)

API Integration: RESTful APIs, Axios (Centralized Instance)
